LOOKING TO THE FUTURE WITH 2020 VISION

As we look back at 2019, it's clear that Oasis of Northwest Arkansas was blessed with a passionate Board of Directors, as well as passionate volunteers and donors who give of their time, talent and resources.

Since its inception in 2009, the generosity of the community has allowed Oasis of Northwest Arkansas to continue providing a sober living and working community of recovering women and their children. Because of you, we have been able to provide volunteer mentoring in everyday life skills, workforce and entrepreneurial training, as well as an extended family network to encourage responsible neighboring and citizenship.

Oasis of Northwest Arkansas has seen an increased need for services in 2019, and we anticipate the need will continue to increase in 2020.

To meet the growing needs, the Staff and Board of Directors have strategic goals in place for sustainability, growth, and accountability.

Oasis of Northwest Arkansas is on a path to success in order to continue assisting women who need a little more help to maintain their sobriety by providing them with an opportunity to live with other women in recovery -- in an environment that is safe, sober and supportive.

Oasis of Northwest Arkansas - Recovering. Rebuilding. Reclaiming Lives.
